May 5th-10th - A deep area of low pressure settled over the Great Basin for several days, with a series of disturbances rotating around the low through the entire Beehive State. The pattern produced widespread soaking rains across the state, with occasional thunderstorms, hail, gusty winds, and even some mountain snow. Minor street flooding occurred along portions of the Wasatch Front as well, as drainage systems had a hard time keeping up.

May 16th-17th - Another juicy storm system brought widespread rainfall across the Beehive State. Heavy showers and thunderstorms developed across portions of northern Utah, with heavy snow across the Wasatch Mountains. The Northern Wasatch Front and mountain valleys were pounded, with rainfall amounts over 2 and 3 inches common. Areas of flash flooding or heavy runoff were reported over portions of southern Utah.

Above: Impressive waterfall from a flash flood streams into Lake Powell.

May 26th - Another round of showers and thunderstorms brought heavy rain, gusty winds and even more funnel clouds to the Beehive State. The heaviest rain fell across the mountain valleys of northern Utah and the southern mountains. A few of the storms produced small hail as well, mainly across central and northern Utah.

Above: A very impressive funnel cloud in Bryce Canyon National Park. This funnel was never verified to touch down, and the obstructions in the photo (tree, hill) make it impossible to do so from this picture.

May 27th-28th - Scattered showers and thunderstorms continued across most of Utah, with some storms becoming severe. Several more funnel clouds were spotted as well. Half dollar-sized hail was reported in the Pariette Wetlands south of Myton, while hail the size of ping pong balls fell in Honeyville. The heaviest rain fell across northern Utah, with the west deserts received the strongest wind gusts. Heavy rain produced street flooding and some basements were flooded in the town of Centerfield.

Above: An amazing photo out of the Morgan Valley of a lightning strike from a severe thunderstorm in Weber Canyon. The town of Mountain Green is visible along the lower hillside. to the right of the strike,

Above: Large funnel cloud observed near Myton on the 27th.

Low Temperature Records For the Month of May

May 15th - Record low maximum temperatures were set at Alpine 54 (58/1998), Bullfrog 62 (65/1977), Capitol Reef N.P. 54 (58/2010), Duchesne 53 (54/1989), Ferron 50 (53/1989), Fillmore 54 (56/1951), Kanab 53 (55/1951) and Spanish Fork 52 (54/1955).

May 16th - Bullfrog set a record low minimum temperature of 46 (47/1989).

Record 24-Hour Precipitation For the Month of May

May 5th - Record 24-hour daily rainfall was recorded at Cedar City 1.11 (0.44/1971). This was also the 5th highest daily total for the month of May in Cedar City.

May 9th - Record 24-hour daily rainfall was set in Salt Lake City 0.92 (0.87/1992).

May 15th - Record 24-hour daily rainfall was set at Alpine 0.82 (0.62/1981), Duchesne 0.76 (0.30/1965(, Manti 0.64 (0.42/1981) and Utah Test Range 0.15 (0.11/1998).

Salt Lake City set a monthly record for May with 18 days of measurable rain. The old record for May was 17 days set in 1995.
